

OUR COMMITMENT TO

SUSTAINABILITY

BOSTON PARK PLAZA

For more than 90 years Boston Park Plaza has been a supporter of our community. Good corporate citizenship extends to all areas of our business and is at the heart of everything we do.

H I G H G A T E

As part of Highgate's sustainability efforts, our portfolio of properties are committed to environmentally-friendly protocols whenever possible including water conservation, recycling and reducing energy consumption. We are proud to support Clean the World® in promoting waste reduction programs through the recycling of soap and bottled bath amenities.

OUR COMMITMENT TO

STEWARDSHIP

Provide sustainably sensitive solutions

Elimination of Single Use Plastics

Boston Park Plaza has a robust plan to eliminate single use plastics throughout the building, including adding guest water bottle refill stations, use of compostable coffee pods and condiment kits and the addition of bulk bath amenities, and more

Guest Room and Meeting Room Energy Management System

Boston Park Plaza employs a state-of-the-art energy management system that detects when a guest room or public meeting room is vacant and turns off heating and air conditioning. The system also detects when an occupied room is vacant and adjusts the temperature.

Food and Beverage

We compost biodegradable organic food waste, recycle all kitchen oils, and use bulk dispensers and reusable containers for beverages, food and condiments.

Single Stream Recycling

Water Conservation, including hotel linen and towel reuse

Compact Fluorescent Lighting

Clean the World Recycling Program

Program that distributes recycled soap and hygiene products to disadvantaged children & families around the world.
